DETAILED ACTION

Election/Restrictions

Applicant's election of Group I, claims 1 - 4 in the reply filed on February 13, 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 – 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Gentes et al. (USPN 4,993,082).

Gentes et al. teach a package shell cover layer (Figure 1, #10) comprising a thin sheet base material of thin sheet plastic material (Column 2, line 65 to Column 3, line 10) printed with a color design (Column 4, lines 11 – 33) and molded (Column 4, lines 34 – 37) to form a semi-finished cover layer having a cover layer main body (Figure 1, #12) and a peripheral material extended around the border of said cover layer main body (Figure 1, #14), wherein the extension portion is formed of said thin sheet base material (Column 2, lines 65 – 68) and suspended between the border of said cover layer main body and said peripheral material (Figures 1 and 2)

Art Unit: 1772

as in claims 1 and 4. The extension portion slopes downwards or curves from the border of said cover layer main body toward the peripheral material (Figures 1 and 2) as in claims 2 and 3.
